

PROFILE

Before starting my journey at Nashville Software School, I taught English to non-native speakers, which led to a role in teaching robotics to children. I'm looking to leverage my acquired skills in teaching & pattern recognition, logic, and problem-solving and break barriers in the software development field.

SKILLS

- JavaScript
- React
- Next.js
- SQL
- HTML
- CSS
- Git/Github
- Python

TECHNICAL EXPERIENCE

Nashville Software School

Software Developer- Apprentice - Web Software Developer Certificate

Intensive part-time software development bootcamp focusing on full stack development fundamentals and problem solving. The final half of the program are executed in a simulated company environment with Scrum methodology.

- Applied OOP fundamentals through group and individual projects
- Developed single-page applications using JavaScript and React
- Managed projects with GitHub boards and issue tracking
- Used Git/GitHub for version control
- Designed solutions with whiteboarding and wireframes
- Created and edited web applications using Django
- Developed RESTful APIs with Django REST framework
- Managed data with SQLite
- Conducted testing with Python's unit test framework

PROJECTS

Lapis

A full CRUD app designed to unify the NYC community by showcasing the work of newly arrived refugees and migrants. It consolidates artisans' locations by borough, their personal stories, contact info, and crafts, all accessible to users via the web.

- [View Github](#)
- [View Netlify](#)
- React, Next JS, JavaScript, CSS, FireBase, React BootStrap, Figma, Canva AI

WattWatchers

An app designed to help users efficiently track their energy bills, manage multiple locations and users, making it easier to monitor energy usage across various properties

- Server Side Team: Python, DRF
- [View Github](#)
- Sprint Planning, Leadership, Project Management, Unit Testing, Team Collab

Earthling

A full-stack app that streamlines linguistic fieldwork by consolidating diverse data collection methods into a unified digital platform, enhancing efficiency for language preservation efforts.

- Python, DRF, React, Next JS, JavaScript, CSS, Firebase, BootStrap, Figma (wireframe), Canva AI, Unit Testing
- [View Server Side Github](#)
- [View Client Side Github \(ongoing\)](#)

PROFESSIONAL EXPERIENCE

AudioNova

Hearing Care Coordinator • Oct 2023–Present
